CACHET WINE

Specification

Vinification Like all good Proseccos, this wine is made from 100% Glera, the local grape to this region of Veneto. The grapes are picked in the cool of the morning to avoid any oxidation or skin discoloration, and the grapes pressed lightly to release the best and most flavoursome juice. Fermented in a series of tanks, using the Charmat (closed Tank) method, the wine is inoculated with selected yeasts, fermented and clarified under pressure in tank, and the wine bottled young to preserve the natural grapey fruit and delicious acidity and forward fruit notes that this style of wine is famous for.
